

Faculty Satisfaction

The USF Libraries began the [Revisioning Collection Management](#) process in October 2020 as a response to the 2020–2022 strategic budget realignment process and a decade-long pattern of unsustainable annual cost increases. Due to time constraints, we had to make decisions based on analysis of a series of well-established variables. During the analysis phase we invited – and received – considerable faculty input, but are now entering a formal review/revise phase designed to solicit specific faculty feedback regarding **library resources that were not renewed.**

We are seeking your input on the **STEM** titles not renewed this fiscal year.

To make this process manageable, the complete list of non-renewed titles was divided into three smaller lists each covering broad interdisciplinary clusters: Arts & Humanities, Social Sciences, and STEM. Titles within each cluster are further broken out by subject area, with a cross-disciplinary category leading the survey for your consideration. However,

we recognize that the interdisciplinary nature of research may mean that faculty in one department would have strong opinions about a title listed in another. Faculty are invited to register their preferences for titles in their specific discipline or for all of the titles listed in this survey. We have provided a "No Opinion" response option where there is truly no intersection with a respondent's research needs.

You are invited to judiciously prioritize non-renewed titles in as many areas of the STEM cluster as you wish. Responses will reflect your assessment of the importance of immediacy of access to each title as follows:

- Immediate online access is essential to my research
- Access within 24-hours is acceptable to my research
- Access within 2-3 days is acceptable to my research
- Access is not important to my research
- No opinion

Survey responses will be used to prioritize reacquisition of as much of the content as the USF Libraries' budget allows.

If you would like additional information about these and all other non-renewed titles, we have launched a [Faculty Survey Data](#) website.

What is your department/school?

College

Department/School

Cross-Disciplinary

For each of the following titles that have not been renewed, please state the importance of immediacy of access to **your research**.

	No Opinion	Access Not Important	Access within 2-3 Days Acceptable	Access within 24 Hours Acceptable	Immediar Online Access Essentia
